STUDENT SUCCESS PROGRAM

Personal and individual support to provide students with simple and effective strategies for study and life.

The Student Success Program provides the foundation pieces for students to:

Become better organised...

Leading to increased success...

Resulting in less stress and anxiety!

8 KEY FACTORS UNDERPIN STUDENT SUCCESS:

- 1. A growth/positive mindset**
- 2. Motivation**
- 3. Love of learning**
- 4. Organisation**
- 5. Time management**
- 6. Prioritisation**
- 7. Concentration**
- 8. Effective study skills**

Key outcomes of the program include:

- A list of goals allowing students to have a clear understanding of what they want to change to improve their academic success
- Being more organised and motivated with better systems and processes in place to maximise their success
- Being more effective using time – therefore able to achieve their homework and study deadlines without stress
- Having organised systems to support their everyday learning and organisation

- A space that works for them to maximise comfort and success
- Being more organised with effective notes and study strategies.

What your child can expect from this program:

- more likely to succeed at school and in life by planning and taking action
- be happier and more confident
- greater motivation and being more in control of their time
- experience less stress, anxiety and feel less overwhelmed.

“upward spiral of confidence, positivity and success”

Does any of this sound familiar?

So you have a son or daughter who is a student and sometimes you're not sure they're on top of things, and not sure how to help? They:

- seem unsure of what homework needs to be completed and when it is due
- seem overwhelmed and not sure where to start
- sometimes or regularly miss project deadlines
- don't appear to understand the difference between homework and study/revision
- struggle with time and the management of their student planner
- work late until the night before in order to complete a task
- are irritable, snappy and stressed or quiet and withdrawn
- have a cluttered and disorganised desk or bedroom
- have a school bag or locker full of 'stuff', the contents of which is largely unknown to them or anyone else.

There is a solution!

How the program works

The student success program focuses on the development of a detailed student success plan to assist students to take responsibility for their school work, activities and time.

This approach is tailored individually and the outcomes are based on a student's own needs and learning requirements. This detailed student success plan includes recommendations and focuses on the following 10 key areas for the student to follow:

1. **goal setting**
2. **mindset & motivation**
3. **personal space**
4. **study space**
5. **locker & backpack organisation**
6. **paper & electronic management of school work and materials**
7. **planning/calendar – routines**
8. **time management & tracking**
9. **homework strategies**
10. **study skills – understanding the learning/study cycle, note taking, revision and preparing for tests and exams.**

Naturally no two students are the same and the student success plan will identify the key focus points for each student - some may need to focus on all of the above areas whilst others may only need to focus on a few.

This program is designed for students from Year 7-12 and is suitable for all students including those with special needs and learning difficulties such as ADHD, Asperger's and Autism.

Our experience tells us that one or two sessions are usually not enough to see a change in habits. The focus of this program is on sustained long-term change and building success.

Are you ready to take the next step?

If you & your child are ready to take the next step in getting more organised and maximising their potential, please get in touch for a complimentary chat and to learn more on how I can support you and your child.

NOTE *For the plan to succeed, the student must agree to work with me and be ready to commit to making changes themselves - not just because their parents expect them to!*

"I liked the way Amanda made me feel, comfortable and at ease. She listened to me and she understood what help I needed. She made a plan for me which I found easy to follow and helpful. I went from feeling overwhelmed to in control of my schedule"

YEAR 9 STUDENT, MARIBYRNONG SECONDARY COLLEGE
